National Pricing Structure:

Flagship offers national equipment services pricing based on the 2025 Carnegie Research Activity Designations (https://carnegieclassifications.acenet.edu/carnegie-classification/classification-methodology/2025-research-activity-designations/).

This designation separates Research Colleges and Universities into three tiers: Research 1 (R1): Very High Spending and Doctorate Production, Research (R2): High Spending and Doctorate Production, and Research Colleges and Universities (R3).

Tier 1 (T1) national pricing is offered to institutions within the R1 classification.

Tier 2 (T2) pricing is offered to institutions within the R2 classification.

Tier 3 (T3) pricing is offered to institutions within the R3 classification, as well as public, non-Research institutions such as municipal utility organizations

Pricing - Other:

Compensation for labor under this Agreement shall be limited to actual productive hours performed at the jobs site.

If an escort by UC is required and is not immediately available, and/or the equipment has been moved to another location that is different than the current database recorded location, the wait time and/or travel time to the new location is counted as part of the labor hours.

For UC locations, initial and post-service event travel time and associated travel costs are included in the per hour labor charge.

For other than UC locations, work locations more than 200 miles from the San Diego, CA, San Jose CA, and Boston, Massachusetts metros, a minimum $5,000 total work order amount is required, and travel charges may apply

Ad-hoc Pricing:
Emergency/Expedite fee: (response within 2 business days): additional $246.50 per equipment

Electrical Safety Checks: Upon request, Flagship can provide an electrical safety check for $30 per equipment.

Preventative Maintenance and Calibrations (per equipment):
End users have the option to either enroll in a Preventive Maintenance (PM) plan, a full-service PM and Repair plan, or request service on an Ad Hoc (as-needed) basis.

Annual PM costs over $10,000 per year or greater can be broken into quarterly payments.

National Pricing for repair and diagnosis rates:

T1 Standard Diagnosis and Repairs	**$**	**130.50/hr**
T1 Autoclaves & Sterilizers	**$**	**340.00 /hr**
T2 Standard Diagnosis and Repairs	**$**	**150.00 /hr**
T2 Autoclaves & Sterilizers	**$**	**390.00 /hr**
T3 Standard Diagnosis and Repairs	**$**	**170.00 /hr**
T3 Autoclaves & Sterilizers	**$**	**440.00 /hr**

Equipment marked with an asterisk (*) is eligible for both PM, PM and Repair, and Ad Hoc Repair plans. Equipment without an asterisk is eligible only for PM services.
